

## White Lamb Wool Cutting Pad

### **PRODUCT DESCRIPTION:**

3D AAT System white lamb's wool pad is arguably the fastest cutting pad available. This genuine wool pad is one of the highest quality, NON-synthetic wool pads you can get and delivers an extremely fast, even cut on any type of painted surface. Unlike synthetic, twisted and knitted wool pads, our lamb's wool pad will not shed all over your project, keeping the wool where it's designed to be, "on the job". You can't fool Mother Nature.

**BENEFITS:**

Real, genuine lamb's wool pads will last longer than synthetic. Real wool will hold products longer and the hair will not fly off the pad and create tremendous clean-up issues.

**SPECIFICATIONS:**

Genuine, high quality lamb's wool.

**HOW TO USE:**

Use with a rotary buffer only.

**WARNINGS:**

Not recommended for DA Polishers.
